"I finished matric in [Year] and since then I've been helping at my aunt's spaza shop on weekends.

I serve customers, handle cash, and pack stock when deliveries arrive. I started a simple notebook to track what sells fastest, so we run out of popular items less often.

I'm applying for this retail assistant position because I enjoy working with customers, I'm careful with cash, and I'd like to learn how a bigger store runs."
