Question: Tell me about a time you worked in a team.

Situation: In my final year, our group of four had a business project due, and two members had stopped coming to meetings.

Task: We still had to hand in a full report and presentation in two weeks.

Action: I made a WhatsApp group, split the work into small parts, and gave everyone a deadline. I phoned the two members who were missing and gave them the sections they were most comfortable with.

Result: We handed in on time, all four of us presented, and we got [mark or result].
